**Transfer of ATEX Quality Assurance Notification (QAN)  
from SGS Baseefa Ltd (NB 1180)  
to SGS Fimko Oy (NB 0598)**

Following your request, I attach a replacement QAN document issued by SGS Fimko Oy and signed by the SGS Baseefa Ltd Technical Manager who is an authorised signatory on behalf of SGS Fimko Oy.

This replaces the document previously issued by SGS Baseefa Limited.

When relying on this document, your ATEX Declaration of Conformity should refer to SGS Fimko Oy as the European Notified Body responsible for the monitoring of production in accordance with Annex IV and Annex VII of the ATEX Directive 2014/34/EU.

The SGS Fimko Oy Notified Body Number (0598) should be shown adjacent to the CE Marking on your equipment, in substitution for the SGS Baseefa Ltd Notified Body Number (1180).

Within the next few weeks you will be issued with a transfer document confirming that the SGS Baseefa certificates listed in the previously sent QAN Annex letter, are now under the responsibility of SGS Fimko Oy.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'J. Wild'.

James Wild  
Quality Systems Administrator
